X (Secondary Education Examination)	Gyanodaya Secondary School, Kawasoti,Nawalpur	3.75 CGPA

## EXPERIENCE/PROJECTS

- ❖ **Banking system UI using Java:** The Banking System project delivers a visually appealing and user-friendly interface for customers to manage their banking needs effectively. It combines simplicity and functionality to provide a seamless banking experience, empowering customers to make transactions, access account information, and take control of their financial well-being.
- ❖ **Banking System to show hierarchical inheritance in java.**
- ❖ **ECommerce website selling Bonsai Plants:** Website was developed by using html5,css3 and javascript only. Collaborated with a team of five members to develop a web application, showcasing strong teamwork and communication skills. I've also created a portfolio website showcasing skills like html,css and javascript.
- ❖ **Laptop Shop Management System using Python:** This System is a comprehensive software solution designed to streamline and automate various aspects of managing a laptop shop. This project aims to provide an efficient and user-friendly platform for managing inventory, sales, customer information, and other essential operations.
